INTRODUCTORY

The aim of this work is to give a complete and accurate index to the public and private educational system of the United States. The information has been thoroughly revised and brought down to date, and before final printing of the book proofs submitted to the various school officials for final revision and correction.

In the main geographical classification, in addition to the public school officials, will be found a complete list of all schools and colleges, together with information as to the kind of school, class of students admitted, religious denomination, year established, and the name of the head of the institution. A second complete list of all schools is given in which they are classified and arranged according to the kind of school, giving a ready reference or complete list of any particular class of school. A complete Alphabetical Index of schools will be found at the back of the book from which any institution may be instantly located. The Public School system is fully covered by lists of the State Educational Officials and County Superintendents of schools, the Boards of Education, City Superintendents, Special Supervisors and Principals. A list of the more prominent libraries, with the name of the librarian and number of bound volumes, is also given. It is believed the work will be found of value to every one in any way associated with educational institutions, or engaged in educational work.

Acknowledgment is made to the various State and City Superintendents of Public Instruction, private school officials, librarians and

ARMOUR INSTITUTE OF TECHNOLOGY

The Tome School for Boys

With its endowment of over two and a half million dollars, it can limit its enrollment to boys of high character. It has a faculty of unusual strength and size. It has created an unique type of school life. It can give much individual attention through its special tutors. Its graduates take high honors in the leading colleges and technical schools. Each boy has his own room. It has the most beautiful school buildings and grounds in America. It has one hundred and seventy-five acres, on which are a nine-hole golf course, five athletic fields, swimming pool, quarter-mile cinder track, tennis courts and batting cage. Its tuition of $700 would have to be fifty per cent greater were it not for its endowment.

The Lower School for Little Boys offers all the advantages of the Upper Forms with the special benefit of a separate dormitory and a separate organization.

Victor XXV
$60 special quotation to schools only

The horn can be removed and the instrument securely locked to protect it from dust and promiscuous use by irresponsible people.

Doing such a great and varied work, it is easy to understand why the Victor is now in **actual daily use in the schools of more than 1100 cities**—and more being added every day.

Write for the complete list of cities using the Victor in the schools, together with photographs showing the Victor in actual use.
